

Barber Consulting Services, LLC

Presents

Stop, Think, Verify !!!

The internet is a great tool and email is a very efficient way to communicate, but users have to be extremely careful on how they are used. No matter how many safeguards you put in place the best defense against Malware, Spyware, Viruses, Phishing sites, Phishing emails, and Ransom ware is education. We need to educate the users on safety practices.

Barber Consulting Services, LLC is now offering cyber security classes to all municipalities. The class will instruct users on internet safety, email safety, password security, security practices, and basics of navigating a PC. We will be offering two sessions per day so all employees are able to attend. The session will be 1 ½ hours in length and will be presented at your location.

Introductory prices are as follows:

Number of Employees	Price
25 or less	\$450
26-50	\$700
51-up	\$850

To schedule your class:
